WALKER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

In offering to the community this justly celebrated remedy for diseases of the throat and lungs, it is not our intention to flatter the breast of those who have suffered from disease, but simply to place before the public the opinions of eminent physicians, and some of the testimony of those who have received benefit from the use of the Cherry Pectoral. We do not claim for it the virtues of a cure all, but we do claim for it the virtues of a safe and powerful medicine, which, when used according to the directions, will cure a great number of cases of Consumption, and will give immediate relief in all cases of Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma, and other diseases of the Throat and Lungs, which are not of a confirmed character.

From the distinguished Professor of Chemistry and Materia Medica, Bowdoin College.

Dear Sir, I delivered a lecture on the subject of your preparation, and gave the results of the analysis of my own family, in the presence of my class.

Truly I have done with a high degree of satisfaction, a number of adults and children, I have found it to be a most valuable remedy in cases of hoarseness and pulmonary complaints.

Brunswick, Me. C. T. JACKSON.

From an Overseer in the Hamilton Mills, in Lowell.

Dr. J. C. Ayer, Lowell, Mass., Apr. 16, 1849. Dear Sir, I have found a most decided relief from your Cherry Pectoral, for a cough and pain in the lungs, which I have not been able to get rid of for years before. I have opportunity of recommending it to others.

Yours, respectfully, A. D. EMERSON.

☞ Read the following, and see what Michael Walker, Esq., of Lowell, says of the medicine when used in a slight case.

UNITED STATES HOTEL, Lowell, Mass., July 3, 1849. Dr. J. C. Ayer, Dear Sir, I feel it to be my duty to inform you of the benefit I have received from your Cherry Pectoral. For many years I have been in the habit of taking cold on my lungs, which would reach my throat, and I would be obliged to stop my business for a week or more at a time. Last spring I was attacked in the same way, but I had the good fortune to procure your Cherry Pectoral, which cured me in a few days. I have since recommended it to my friends, and shall always do so when I find a cough or cold of a dangerous nature. Yours, respectfully, MICHAEL WALKER, of the firm of Messrs. Tyler, Walker & Co.

Prepared by DR. J. C. AYER, Practical Chemist, Lowell, Mass.

Sold by the Agents in Bangor, Samuel Hathaway, Jr., Hodges & Co., Dorrance & Co., Dexter & Nichols, and by the Druggists generally throughout the country. 3m 18—dawtw&w3m

Shore Road, or Back Road,—which?

To the Editor of the Whig and Courier.

I am glad that my article, copied in your paper of the 9th inst. from the Democrat, has attracted the attention of gentlemen interested in the property, if not the stock, of the B. & P. C. & R. Company. The communication of Mr. H. in today's Whig may convince the citizens of Bangor that the back road [illegible] for the sake of brevity I will designate the present road) can easily and fully accommodate the up-river traffic—or it may fairly confirm the opinion, now so generally entertained, that it cannot, at any reasonable expenditure, furnish the facilities imperatively required by this large and constantly increasing business. Without, however, undertaking to decide as to the effect of this article upon the minds of the business men of Bangor, I will, with your permission, make some observations upon the two routes mentioned at the head of this article—their relative cost, advantages and disadvantages.

Before doing this, I will briefly notice some of the positions of your correspondent.

He seems to agree with me that the location of Bangor is such, with respect to other cities, that there could be no fear of injury to her trade in the event of the connection of the western and eastern roads at some point in the city. And I fully agree with him as to the importance of the early, immediate, construction of a road from Milford to Lincoln or Mattawamkeag. I am sure that the friends of the shore road will use no influence and seek no aid to the prejudice of the upriver road but, on the contrary, will do what they can to secure its construction. But I must doubt whether H. is quite correct when he speaks of a connection between the back and up river roads as a settled matter—a foregone conclusion. The wish was father to the thought, but the thought I doubt me is hardly crystallized into fact.

The cost of the shore road, from Bangor to Oldtown, according to your correspondent, will be $600,000 or $35,000 a mile. It is true that the Engineer in his report makes the entire cost of a road, which he says will be equal, in all respects, to the best road in New England, at a little short of half a million—but this estimate excluded the expense of branches, with the best accommodations, to 150 saw mills, a bridge to Bradley, expensive station houses, and a large equipment—an equipment that would not be required for a road that should do a business paying a return of 12 per centum annual dividends on its stock. Under these estimates for stations, land, and equipment alone, if I am not mistaken, the entire cost of the back road to its present one day. Now, if the shore road shall require a large expenditure for buildings and equipment, it must be for the reason that it will do a very large and profitable business. The outlays will of course be materially reduced if the road shall secure but a moderate business. From the details of the Engineer it is manifest that a road better than the back road is, or ever was, with a heavier and better rail, with furniture and depots as good and as extensive as those of the latter, road can be built for a sum of $300,000; and a road as good as that in all respects, for less than $350,000. That the sum first named ($300,000) will be sufficient to build and furnish a substantial and convenient road to Oldtown, (independent of branches) the date of the Engineer will satisfy any one who will take the trouble to examine them. The branches will be constructed and extra equipment provided only as the needs of the traffic on the road shall require.

H. speaks of the additional cost for a track from the City Point to the west side of the Kenduskeag. But the shore road is, at tide water, up to the heart of the city, without the extension. The back road comes a hill 50 feet above tide, and by the nearest route that can be taken, 1250 feet distant from the wharves; and that route will require a grade, according to the survey of Wm. T. Parsons, Esq., in 1837, of 116 feet to the mile. Now, both roads bring us to Bangor; one at the City Point and the other on the hill,—which can reach the Penobscot river at some point on or below Broad street, the most easily, directly, and at the least expense? Suppose the back road should take another route, than the one surveyed by Capt. Patterson, and, as it has been sometimes suggested, should build a high bridge over the Kenduskeag and tunnel or make a deep cut through the hill back of the Court House and come to the river below the town,—which road, in each case, would make a common point, at the smallest expense and on the most favorable grade? Again, both roads being in Bangor, one at the City Point and the other on the hill,—which can be afford to stay where it is?

H. speaks of the back road as being on a direct line and of the road of the shore road as circuitous; implying, clearly, that the distance from Old-town to Bangor is greater by the shore than by the back road. Is it so? If so, I presume, conceded on all sides, that a road must be incomplete and unsatisfactory that shall not reach the tide waters by a track over which the locomotive can ply readily and advantageously. The distance from the old depot of the back road in Oldtown, to the depot in Bangor is something short of 12 miles, I believe. I have not the exact distance at hand, and speak only from recollection. To obtain a grade to the river that can be used to any advantage, will require an extension that will, inevitably, fix the whole length of road at more than 13 miles.

From a point at Oldtown, within a few rods of the station of the back road, the distance, by the shore road, around Thompson's Point, to the City Point, is 12 99 100 miles. This by the longest route. A line was surveyed from the Corporation Village, in Bangor, westerly of the plains, and coming to the river near the red bridge, which shortens the line 35 100 chains, and will reduce the expense some $5,000. If this line, that, I believe, is adopted (of which I express no opinion) the length of road from Oldtown to the City Point will be but 12 4-6 miles. At either route, by either route, WATERS CAN BE REACHED BY A SHORTER LINE, OR ROAD ON THE SHORE THAN ON THE BACK ROAD. This is a fixed fact, and is worth considering.

But, when driven from mining and ditching, beneath or around the Hammond Street Church, that the regards "below Jappa" may be safely appreciated, we are sometimes told by the back road folks that a branch may be laid from the Hatboro Meadow to the Penobscot river at or below the red bridge, and thence to the City Point. This is unquestionably the best and cheapest (and probably the only) way in which the back road can get to the wharves—but this requires, according to Parsons's survey, a new road more than 13 miles in length, and would make the distance from Oldtown to tide greater than by the Hammond street route. Moreover, it would be building 2½ miles of the road of the shore road and back for the most convenient of it. The cost of the 13 miles from the Hatboro Meadow to the City Point, of the cost of the extension crossing Hammond street, with the bridging, tunneling, through cutting and enormous land damages, would be quite sufficient to build a road to the city of Oldtown, or one half of the distance to Oldtown. Who believes that, in this case, a road would not be built at once from the red bridge by the shore to Oldtown? It would be nearer, as any one can see, that to make the sharp angle and the two miles of westerly direction, required by the Hatboro Meadow branch, and would accommodate the people, and give facilities to the villages (not unimportant to a railroad) of North Bangor, Stillwater, East and West Great Works.

H. begins to think that the great question is whether the shore road shall be built or the up-river road; and asks whether it is of the importance to Bangor to be connected, with the villages referred to or with the great up-river country. The true question, I submit, is whether she can and will have both roads. If she can assure the road to Lincoln, does it become unimportant whether or not she has railroad communications with the villages in which one manufactured three fourths of all the lumber run annually to her markets? Is it an object to her to avoid these places? Does the up-river extension depend upon this condition? Will it, not, in fact, the up-river road make more necessary and important the road upon the shore? Will it not, demand, the grade—a gently descending or level grade, every rod from Oldtown—the wharf, warehouse, dock and plank-age-landing conveniences, which the shore road, and no other, can give? Is the trade and transportation of the Upper Penobscot, Aroostook, and Katahdin Iron Works regions, to be crippled and embarrassed for an indefinite period by the imperfect accommodations which the back road can, at best, afford? Is this an inconvenience and inconvenience a sufficient compensation, lumbermen of Bangor, for injuring your stores, and wharves, and mills?

I remember, Mr. Editor, that my notices of the meeting and statements of your correspondent (to whom I am under no little obligations) are not quite so brief as I intended to make them; but as they have proved much shorter than other pieces of consideration indicated at the commencement of this article, I shall make an apology for their length.

I have stated that the shore road could be built down for $300,000 [illegible] back road, I have been informed, stands out owners some $150,000. Add to this the cost of extension across the Kenduskeag through the hill, the cost of the station grounds &c., the enormous damages, the new buildings, the new engines, &c., necessary to make the road strength, durability and outfit, to the road, costing $300,000 and if you do not the expense of the back road will be $50,000 greater than that of the other. I down here to prophesy, and give H. fair warning, to his south content, at the "early completion" of the shore road. And when Bangor has paid $50,000 for a poorer road, she will find that one is not needed: some way to bring lumber to market in dog-days, and her lumber at all seasons, and all her lumber worse.

The Subscribers, Trustees of the Insane Hospital, to whose turn it came to visit the Hospital the present quarter, find that since the fire on the 4th December, the temporary repairs of the Hospital have been completed at an expense of about $900. The north wing is entirely restored and a temporary roof has been put over a portion of the main building, so that the offices and the dining rooms for the patients can be occupied.

All the patients supported by the State, who were sent from the Eastern mountains to 28, have returned; some of the others also, and some new patients have been received, others are known to be coming. The whole number now in the Hospital is 44. About do more than be received by putting two of the least violent in a room.

In consequence of the reduction of patients, it became very important that a reduction should be made in the expenses, and Dr. Bates the present Superintendent, having received from the Governor and Council an appointment to visit other Insane Hospitals in the United States, with a view to report what improvements could be made in the buildings, (should the State think proper to have them restored) has resigned the office of Superintendent; and we have judged it expedient to keep the office vacant for the present, believing that Dr. Harlow, who has held the office of Assistant Physician in the Hospital for nearly six years, and had previously been connected with the Insane Hospital at Brattleboro', Vt., could adequately perform the duties of acting Superintendent and Physician, while the patients remained so few as the present buildings would accommodate. They have also made as many other reductions in the expenses as was possible. They have also ordered that the board should be uniformly fixed at $4,00 per week for all patients, as the accommodations do not allow the same classification as has hitherto taken place.

CURIOUS NEWS FROM BRAZIL.—A letter in the New York Express, dated Rio Janeiro, Nov. 25, says:

"That the horrors of war have not visited us before now may be mainly attributed to the influence exercised by the diplomatic agents of France and England, whose power preponderates here, and, at Buenos Ayres is reverenced. The grand secret which has occasioned so much difficulty has at last leaked out, and the Emperor, at the instance of the principal sovereigns of Europe, is determined on uniting the Buenos Ayrean provinces to those of Brazil and the two to be inseparably connected in a great South American confederacy, allianced to the European holy alliance by a treaty now in contemplation of forwarding, the same being based and cemented by laws indissoluble, and to be ratified by the assembled crowned heads at London during the exhibition of the World's Fair. From authority reliable, I learn that the French president has been offered a province to be converted into a kingdom in perpetuity, and some other German sprigs of royalty will be presented with existence, principalities, principalities and grand dukedoms. This is not monarchy, it will other do much, or undo itself."

WASHINGTON, Jan. 9.

In the Senate—Mr. Davis presented a memorial of a number of inventors of the U. S. praying that the bill now before the Senate to amend the Patent Laws may be postponed till the next session.

The committee on petitions reported adversely on numerous petitions of private individuals.

Hall, from the same committee, reported the bill renewing the pension of the widow of the late Lieut. McKay, after debate engrossed.

Sen. Douglass called up the bill providing for the free navigation of the St. Lawrence river, and it was then made the special order for Jan. 28.

Sen. Pearce introduced a joint resolution, relinquishing to the State of Maryland two of the cannon captured by the brigade under the command of Gen. Ridgy at the battle of Contreras. He said Gen. Ridgy desired to present these cannon to his native State, Maryland.

The joint resolution ordered to be engrossed.

Several engrossed bills were then read and passed. On motion of Mr. Phelps, the bill to change the place for holding the U. S. Courts in Vermont was taken up and an engrossment ordered.

The bill to settle private claims in California was taken up.

Sen. Benton continued his speech in opposition to the bill. He again pointed out serious injuries to Californians and the unconstitutionality of Mr. Gwinn's bill.

Sen. Gwinn briefly replied, and on his motion the bill, with all its amendments, was referred to the Judiciary Committee.

Mr. Underwood moved to take up the resolution making land warrants assignable. Lost.

On motion of Mr Hale, it was ordered that when the Senate adjourn, it shall be till Monday. Ayes 21.

Mr Douglass from the Territorial Committee reported a bill to refund to Oregon Territory the expenses incurred in the Cayuuse war. Also a bill to make the bill creating the office of Surveyor General of Oregon applicable to Utah.

The bills ordered yesterday to be engrossed were taken up and passed.

The bill engrossed yesterday granting a pension to widow Sarah McCoy, coming up, Mr. Yulee opposed it and a debate ensued. The bill passed.

Mr. Shields reported a bill authorizing Wisconsin to select 50,000 acres of land for purposes of internal improvement to supply any deficiency in the selections by State under former law of Congress.

Mr Dawson opposed this as a dangerous precedent, and spoke of the injustice of wholesale grants of lands to the new States without any corresponding benefit to the old States. The Public lands have been purchased by the money of all the States, and the old States are entitled to equal benefits with the new States.—There were railroads, munificent volume, and poor asylums in the old States, but nothing was granted for them. But such things in the new States were amply provided for by these grants of land.

Mr Foote was afraid of any issue between the old and new States.

Mr. Dawson replied.

Messrs Hale and Cass were in favor of the bill.

The bill was ordered to be engrossed, 32 to 10.

A Message from the President, enclosing a report of the Secretary of the Navy, on the discipline of the Navy and in relation to the abolition of flogging, was received and ordered to be printed.

THE PROPOSED UNION CONVENTION IN WASHINGTON.—Mr Foote has published a letter in reference to the proposed Union Convention in that city, in which he denies that this proposed movement had any connexion with the Presidential question, and explains the object of it as having relation merely to the support of the adjustment of the last session in all its parts, and to imparting additional zeal and efficiency to the efforts of the friends of the Union in every section of the republic.

NEW LIGHT ON SPIRITUALISM.—It is stated that a majority of the Naval Committee in the House have agreed to accept the proposition submitted by Mr A. W. Thompson of Philadelphia, for a line of steamers between San Francisco and Shanghai, and all the world Philadelphia and Norfolk alternately and the Continent of Europe, touching at Havre, and Portsmouth.

A. & K. RAILROAD.—The business of the fall and winter thus far, there than meets expectation. Freight trains amounting to $100 to $150 are not unfrequent. The freight train yesterday consisted of nine cars, with 51 tons, freight amounting to about $120. It was made up of horse stock, lumber, poultry, beans, leather, hides, woolen goods, live pigs, butter &c. The stockholders have much reason to be encouraged. [Waterville Mail.

Election of Governor and Lieut. Governor of Massachusetts.

BOSTON, Jan. 11.

The Massachusetts Senate to-day made choice of S. BOUTWELL for Governor of Massachusetts, and HENRY W. CUSHMAN for Lieut. Gov. The condition is working order, although in order to keep up appearances the leading locofocos of the Old Bay State affect to protest against the union of their party with the free soil party.

Seizure of the Steamship Niagara.

The steamship Niagara has been seized by the Collector of Boston for violation of the Revenue Laws. Smuggled silks to the amount of $6000 have been secured. The Boston Advertiser states that the officers of the Niagara are implicated and that probably the Secretary of the Treasury will order a release of the vessel. The goods are supposed to belong to two or three German Jews.

HARRISBURG, Jan. 10. A bill has been introduced in the Legislature for the repeal of the Fugitive Slave Law.

Executors Sale of Real Estate.

I HEREBY give public notice that by virtue of a license from the Judge of Probate for the County of Penobscot, I will proceed to sell at public auction on the highest bidders thereto, on Saturday, the fifteenth day of February next, at one of the clock in the afternoon, in Patten, in said county, on the premises to be sold as hereinafter described, all the right title and interest which Stephen Parker, late of Patten, in said County, deceased, had at the time of his decease in and to the homestead farm occupied by him in said Patten, being lot numbered forty-four in said town, with all the privileges and appurtenances thereunto belonging, excepting so much of said premises as was assigned to the widow of said deceased for her dower, the same being all the real estate of said deceased within my knowledge. The sale will be at the time and place the extension of the widow's dower in the said premises. Said premises are subject to a mortgage to the trustees of Patten Academy to secure the payment of about one hundred and twenty five dollars. Terms, Cash on delivery of the deed.

DANIEL WHITEHOUSE,

Executor of the Estate of Stephen Parker.

Patten, Jan 7th, 1851. jan 13—w3w

Notice of Foreclosure.

WHEREAS Harvey Sawyer, of Troy, in the County of Waldo, by his mortgage deed dated the twelfth day of October, A. D. 1842, and recorded in the registry of deeds for the County of Penobscot, Vol. 145, Page 27, conveyed to the undersigned a certain lot of land situated in Etna, in the County of Penobscot, being lot numbered sixty two according to the original survey of said town, containing eighty acres, more or less. The conditions of said mortgage having been broken the undersigned claims to foreclose the same.

THE PILES!

A CURE FOR LIFE SECURED!

DR. UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES!

THIS VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished physician of New York city, is the only remedy ever discovered for that dangerous and distressing complaint, the Piles, ever offered to the American public.

The Electuary contains no *Mineral Medicines, as Calomel, Cinnabar, Gamboge*, or other powerful and irritating purgatives. No fear of taking cold while under its influence; no confinement or diet necessary. If taken according to directions a cure is *fully guaranteed*.

Another certificate added to the hundreds already been received of the efficacy of Dr. Upham's Electuary.

NEW YORK, August 25, 1846.

Messrs. Wyatt & Keshum—Gents: For several years past I have been troubled with piles, a very costive state of the bowels, indigestion and weakness of the system. Having tried almost every thing recommendable, and found no relief, I purchased three boxes at your store, and from the effects of which I found myself entirely cured of the Piles and my health much improved. I remain, your much indebted friend.

The writer of the above, from motives of delicacy, declines having his name added, but authorizes the publication of the original certificate to those who may doubt its authenticity.

Another fact to add to the efficacy of Dr. Upham's Electuary.

PHILADELPHIA, Sept. 9 1846.

Dr. Upham—Dear Sir: About five years ago I was afflicted with what was called Colonic Dyspepsia. I have suffered with it, at times, and physicians have told me it was incurable. I was constantly troubled with wind and pain in the bowels, and was attended with a peculiar putrid smell, were the frequent discharges. A short time since I made a visit to Massachusetts, in hopes of benefit from a change of air, but suffered more severely than ever before. While there, a physician offered to cure me for $10, in three months.—Happily, for the sake of my health, I declined, and relied by landauum, I saw in a wrapper of your Electuary a perfect description of my complaint, together with many certificates of cures. This gave me great confidence in the medicine, and I purchased a box, and took doses of which I apparently cured me, and am prepared to say every thing in its favor, so remarkably serviceable to the unfortunate sufferer from the same disease.

Respectfully yours, BENJAMIN PEROVALL,

KITCHEN & HENDERSON'S

HAIR PRESERVATIVE.

THIS article has been before the public nearly five years, and the proprietors are prepared to say that for REMOVING DANDRUFF from the scalp, *RESTORING HAIR WHERE FALLEN OFF TEMPORARILY*, and giving it a BEAUTIFUL SOFTNESS AND GLOSS, CANNOT BE EXCELLED. The basis of this Preservative is a pure vegetable Oil, extracted from a plant found growing luxuriantly, in the Western States, and which possesses, in a remarkable degree the essential properties requisite for *REPRODUCING AND BEAUTIFYING THE HAIR*, by acting upon and reviving the glands or roots. Those who faithfully apply this Preservative, will be surprised in finding how silk-like and glossy it renders the Hair, while it clears the scalp of scurf and dandruff, and affords the most agreeable sensations. It has already been extensively used, and in every instance has given perfect satisfaction.

REASONS FOR USING THIS PRESERVATIVE.

1. It is a very pretty, CLEAR article and has an agreeable perfume.

2. It is put up in a very convenient form; and at a very reasonable price.

3. Acting as a stimulant, it afforded relief to the Head-ache.

4. It gives to hard brashy Hair a desirable moisture and softness.

5. It promptly arrests the falling off of the Hair where the evil has commenced, and promotes the growth of new Hair. In fine, it does all for the Hair that any preparation for restoring and improving that ornament of the head can possibly do.

City of Bangor.

In the year of our Lord one thousand eight hundred and fifty.

An Ordinance defining a system of accounts for the Expenditures of the City.

SEC. 1. Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, that there shall be annually appointed by the City Council a Joint Standing Committee of Accounts, whose duty it shall be to meet once a month and as much oftener as they shall deem expedient. They shall carefully examine all individual claims and accounts against the city and certify the same to be correct, when found to be so, with a view to their being paid. They shall hold meetings in the month of March, annually, and prior to the second Monday of said month, of which meetings previous notice shall be given in one or more newspapers printed in the city, for the purpose of examining all accounts against the city which have accrued during the preceding year, or so much thereof as shall then be unsettled, and after having examined and audited the same, they shall report specifically thereon to the City Council, that the same may be liquidated, and money passed for that purpose. And the members of said Committee shall receive from the City Treasury for their services, such sum as the City Council shall annually determine.

SEC. 2. Be it further ordained, that no money shall be paid out of the City Treasury, except on orders drawn and signed by the Mayor, designating the fund or appropriation from which said orders are to be paid. And the Mayor is hereby authorized to draw on the Treasurer for all appropriations to City Officers, at such times as may be fixed for their payment by the City Council, and also for the payment of all accounts within a reasonable time after their allowance.

SEC. 3. Be it further ordained, that it shall be the duty of the Mayor to keep, or procure to be kept under his supervision, in a methodical manner, such of books, wherein shall be stated the appropriation for each object of expenditure, and an account shall be opened with the Treasurer and Collector, in which shall Treasurer is the Collector of the city, or charged with the Treasurer, in which he shall be charged with the whole amount of Taxes placed in the hands of the Collector, for collection together with all the other moneys received by him on account of the City, and which may be drawn for by the State, or shall be paid to the Treasurer to collect, and receive all rents which may be due to the city, and under the direction of the Mayor and Aldermen to sell and execute all leases of City land or buildings he shall allow, receive all fines and penalties which shall be paid to him from time to time by the City Marshal.

SEC. 4. Be it further ordained that an Ordinance establishing a system of accounts of the expenditures of the City, passed April 22, 1841, and an ordinance to repeal a part of said ordinance, passed April 5, 1841, be, and the same are hereby repealed.

Mann's Writing Ink.
THERE is no mistake as to its excellencies. The following is the testimony of the Bangor Democrat:
"This Ink is manufactured by Dr. Wm. Mann of this city. We have used it for the last eight or nine years and can assure the public that it is an excellent article. It is a jet black, flows freely from the pen, and retains its color on our account books, after the lapse of years, as fresh as when first written. The proprietor has made little or no exertion to bring this Ink before the public, yet it is used extensively, not only in this vicinity, but in Boston and other places. He offers it cheap at his Drug Store, No. 57, West Market Square."

GENUINE BALM OF COLUMBIA.

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure a bottle of Columbia. In cases of baldness, it will in nine cases out of ten restore the hair, even where the hair has been lost for twenty years, have fallen to the original perfection by the use of this balm. A certain, or compound, is perhaps to be no object whatever; it also causes the fluid to flow with which the delicate hair fibres are filled, by which means thousands (whose hair was gray as the Adder's tongue) have had the color restored to its natural hue by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. All washes and applications only are necessary to keep the hair from falling; it strengthens the roots, it gives life to impart a rich glossy appearance, and is a luxury for the toilet. It is recommended by all other preparations as the most efficacious. It is also efficacious.

☞ *Look out*—Never buy it unless you find the name of Lyman & Co. on the wrapper, as no other is genuine. Ask for it, and take no other.
